**Lonely Planet : Lonely Planet Montenegro (Travel Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Montenegro (Travel Guide):

0 of 0 people found the following review helpful. A useful companion for your trip By Marty McNutt I spent 8 days in Montenegro, and this guide was extremely useful throughout. You certainly can find all of the information online, but I prefer the organized formatting of the book. I found the restaurant price rankings useful, and they were always accurate. The "Top 16" offered by this book is an excellent starting point for anyone unsure of what to do next. The

country is relatively small, so you can usually accomplish a lot by traveling a fairly short distance. I will say, some of the entries are very short and could use more detail. For example, we tried to visit the prehistoric rock paintings at Lipci, but failed. We were able to follow all of the directions, but when we passed the cave as instructed, we still couldn't locate the paintings above us. Outside of the bay and riviera, there aren't that many tourists around Montenegro, so you will have to rely on detailed directions to find sites outside the busy zones. Thanks to this book, you will be able to discover a lot of sites that are off the beaten path. Overall, I would say it is worth bringing with you. The sections about Montenegrin culture and history are necessary to truly appreciate your visit! 0 of 0 people found the following review helpful. Highly Recommended! By QVery useful!! Great guide to the best places to visit, what roads to take and what roads to avoid. The best restaurants. This book was my essential reference on a recent trip to Montenegro. Includes guide to Dubrovnik in Croatia. 0 of 0 people found the following review helpful. Disappointing. Don't Bother. Google is better. By AI was less than impressed with this Lonely Planet. I found the entries to be short, lacking detail, and un compelling. I had better luck googling top recommendations while in country than relying on this book. I feel like I wasted my money.

Lonely Planet: The world's leading travel guide publisher Lonely Planet Montenegro is your passport to all the most relevant and up-to-date advice on what to see, what to skip, and what hidden discoveries await you.
