Lonely Planet, Karla Zimmerman : Lonely Planet Pocket Amsterdam (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Pocket Amsterdam (Travel Guide):

3 of 3 people found the following review helpful. Great book for a quick trip through the city By Not My Real Name If you don't need an encyclopedia to help you travel, but a quick guide book - look no further. I was in Amsterdam for a week on business. This book was a gem. It fits in a man's back pants pocket or inside jacket pocket. There is a large number of attractions and plenty of local information listed. For attractions it has the basics needed to figure out what you want to see and go there. For local information (I had no Dutch, and my German was just a hindrance), it has good

public transit info, phrases, cultural tips, and it's streamlined to help you find what you need to do and get it done. The pull-out map was great, it gives a fine overview of downtown all the way out to Schipol, and there are lots of blowup maps for various parts of the city within the book itself. 0 of 0 people found the following review helpful. Detailed information and nice map

Planning my first trip to Amstrdam and the Lonely Planet travel guides were recommended to me. After looking at different travel guides it did seem that they were the best value - ratings and price. Have been reading the guide and it is very detailed, good layout and has some good recommendations. The map included is also easy to read, very detailed, and folds up nice and small. Excited to put the information to use when I visit. 0 of 0 people found the following review helpful. Five Stars
