**Lonely Planet : Lonely Planet Romania Bulgaria (Travel Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Romania Bulgaria (Travel Guide):

0 of 0 people found the following review helpful. For a Lonely Planet Guide, A DisappointmentBy Thomas GregoriosThe book arrived immediately in top-notch condition. No problem there. My traveling companion advised me not to waste money and weight on a travel guide for Bulgaria. I bought this travel guide. He was right. It did not meet the standards I expected from Lonely Planet. Of the the 495 pages, only 214 were devoted to Bulgaria, my

country of interest. The history on a country, which most Americans know little about, was extremely brief. The write-ups on the individual sites were skimpy. The maps were no better than those I had pulled from the internet for pennies and had the names only in Latin characters, not also Cyrillic, which is sometimes needed. The phrase book at the back missed some of the top ten polite phrases and had no refresher in the Cyrillic alphabet. The accommodation and restaurant sections were of less interest, as we had selected the hotel and my traveling companion, a true foodie, knew which restaurants he wanted to revisit. Bulgaria is a wonderful country to visit for the slightly more adventurous travelers, and it welcomes visitors. It has wonderful cultural resources from Roman times onward, splendid natural resources, and sea-side resorts. Unlike the Aegean Islands, which are overrun with too many visitors, in Bulgaria one can see the sights close up and do some things as Bulgarians do, visiting great markets that sell traditional handcrafts, icons (sacred images) and contemporary goods. Beyond the sleek modernity of the heart of Sophia--with its new metro incorporating elements of the Roman city; a few Black Sea Resorts; and a few major sites; Bulgaria does not offer the modern travel amenities of Western Europe and the US, and one needs to plan accordingly. If you are hoping to rely on this guide, you need significantly more information to ensure an enjoyable visit. 1 of 2 people found the following review helpful. Very good - but I prefer Rough Guides - Lonely Planet ...By Michael Sherman Very good - but I prefer Rough Guides - Lonely Planet suffers a bit from the overly descriptive hipster writing style. 1 of 2 people found the following review helpful. Always enjoy the history section By Fredi P Eckhardt Very helpful and up to date. Always enjoy the history section.
