**Helen Gillman : Lonely Planet Rome (1st ed)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Rome (1st ed):

7 of 8 people found the following review helpful. Lost and Lonley in RomeBy Pav SethiThis is perhaps the worst travel guide I have ever used. The maps are essentially unusable and completely unhelpful. The index did not contain such basic references as the Sistine Chapel or the Palace of Augustus. It also commonly referred to monuments/sites by their Italian labels, and this proved to be irritating and inefficient. Lastly, the guide was missing a huge amount of critical information on the city. It is a far inferior work to the "Rough Guide," and anyone who wants a free copy of the

Lonley Planet Guide can email me for mine.4 of 6 people found the following review helpful. Comprehensive Guide to RomaBy A CustomerThis travel guide for Rome, Italy is a must have for the first-time visitor. The guide has decent maps (although most are black white), a small dictionary with useful Italian phrases and their English equivalents, and basic info for travellers including exchange rates, requirements for travel, transportation, etc. The guide also has tips suggestions for dining, places to stay, things to do, and entertainment - each of which is broken down by price range, so that budget high-end travellers alike can benefit from the guide. Another great feature is the listing of day excursions from Roma (including Tivoli Viterbo) and the Rome Walks chapter, which I found especially useful when planning my trip.

This new guide helps travellers revel in the modern energy of Italy's ancient capital city while exploring Rome's famous sights and its lesser-known nooks and charms. It is packed with well-chosen places to wine, dine or snack, from lively bars to elegant five-star restaurants, and includes an Italian language guide.

As usual the guidebook standard is set by Lonely Planet-- Outside
