Lonely Planet : Lonely Planet Russian Phrasebook Dictionary (Lonely Planet Phrasebook and Dictionary) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Russian Phrasebook Dictionary (Lonely Planet Phrasebook and Dictionary):

0 of 0 people found the following review helpful. Not great for a quick tourist visit, but maybe for a longer term

stayBy R. SchiffmanThis book has useful phrases and information about the Russian language for a long stay in Russia and it's probably very handy for that. But for someone with no Russian experience looking for phrases for being a tourist for two weeks, I found the book difficult and not very helpful in real situations. Often I would just want to find a really simple phrase like "excuse me" and be flipping through hundreds of really specific phrases like "The handle on this drawer is broken" (i made that up, but something like that). Yes, the basic phrases are all in the beginning but it's not easy to find because they're amidst paragraphs explaining nuances about grammar, and the phrases I was looking for were never where I thought they would be. Also, the cyrillic letter charts in this book are really confusing and I don't think you can learn it from this book alone. I did learn cyrillic from another small book my husband bought that was just for that. I think this book might as well include a few extra pages to fill in the gaps in the cyrillic section.8 of 8 people found the following review helpful. Russian Phrase BookBy S. LoftinWe just got back from a trip to Russia and this phrase book came in handy. We didn't use it a lot because most of the people we dealt with either spoke English or we could grunt and gesture enough to make ourselves understood. The book is well organized to highlight phrases that one would deal with while traveling or shopping or dining, etc. Plus it has a small English to Russian and Russian to English section in the back. It is small enough to fit in a pocket and doesn't rely on cell phone signals or WiFi like a phone app would.It would work well for a casual traveler. If you want a heavy duty English/Russian dictionary, however, this is not what you want.2 of 2 people found the following review helpful. Recommended for several reasons, but with one problemBy Sandie D.This is an excellent, small, book covering many subjects, and containing the Cyrillic spellings and English pronunciations, as well as some grammar. I need it to teach English to immigrants, and it's fine for that, especially since I already know some Russian. The only problem is that the print is delicate and pale, not necessarily easy to read in dim light. Also, developing Russian pronunciation can definitely require practice with a native speaker.

Lonely Planet: The world's leading travel guide publisher Admirers of Russian literature claim that the 'Slavic soul' of writers such as Chekhov or Tolstoy can't be fully appreciated in translation. For the less ambitious, the language will bring you closer to deciphering the 'riddle wrapped in a mystery inside an enigma' that is Russia.
