Lonely Planet, Kerry Christiani, Vesna Maric : Lonely Planet Sardinia (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Sardinia (Travel Guide):

Worth having if you need a reference while on the road but most of the best things we did and the information we needed were not really covered in this book. Navigation clunky. Maps need improving. Limited info of

La Madalena. No mention of a day trip to Bonifacio in Corsica from Santa Teresa di Gallura one of the highlights of our trip. 1 of 1 people found the following review helpful. Perfect Guide to 'Real Sardinia' By Erin Baumann Having followed Lonely Planet's advice throughout our recent trip to Sardinia, my boyfriend I couldn't be happier. We weren't looking to flash our cash or impress the fashionistas along the Costa Smeralda, so we needed a guide that had a solid base in the rest of Sardinia - or what Sardo's refer to as the 'Real Sardinia'. Recommendations on where to stay in beach towns, mountain villages, Cagliari were all fantastic I can honestly say that at no point did I feel lost or led astray by this guide. 0 of 0 people found the following review helpful. Full of very useful information By Client Well parted in geographical chapters, this book is surely worth the money to buy it. The only thing that disappoints me, as I like hiking and discovering inner mountain regions of an island, is the pages long description of sand beaches, rock beaches etc. from northeast to south and back to northwest... I was at the point of getting a "beachphobia" ! Anyway the still updated information in this book are more than useful and easy to find on a Kindle reader.

About the Author Big wilderness, the promise of snow in winter and a husband born in Villingen lured Kerry from London to the Black Forest four years ago. When not on the road, Kerry can be found hiking, cycling or cross-country skiing in the woods and hills close to her home. On recent research she was delighted to rediscover Baden-Württemberg, from canoeing on Lake Constance to testing (well it would be rude not to!) Black Forest cake in Triberg. Kerry's incurably itchy feet have taken her to some 40 countries, inspiring numerous travel articles, online features and around 15 guidebooks, including Lonely Planet's guides to Austria, Switzerland, Munich, Bavaria the Black Forest and Portugal.
