6 of 6 people found the following review helpful. Lots of useful information hereBy Maggie AnnLots of useful information here, but wishing I had gotten the print rather than Kindle edition. Kindle edition lacks an index, although of course you can use the search function, which brings up every time the searched word occurs, with no way to tell

whether it's just an aside or three pages on the topic. There is a table of contents as well, which helps. Just easier to browse with a real book. Will save weight on our trip to have it on my iPad, and if I can properly bookmark by then, will be handy. 2 of 2 people found the following review helpful. beautiful and clear By CustomerBig, beautiful and clear. We will plan our Scotland trip with this map and 2 others. 1 of 1 people found the following review helpful. the recipient seems quite happy with it By BSPObought it for a gift, the recipient seems quite happy with it.
