**Lonely Planet, Mark Baker, Paul Clammer, Steve Fallon : Lonely Planet Slovenia (Travel Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Slovenia (Travel Guide):

1 of 1 people found the following review helpful. lotsa detail By John Sellers The Kindle version of this book is handy--no pages, no weight; I'm going for an extended time so am grateful for the detailed rundown of so many many places, and having prices (although they will change) is helpful and not in all travel guides. The maps zoom in and the table of

content works. Each of the three travel guides I've seen have their own strengths: this one, the DK and Rick Steve's guided tour. If you are going I would recommend it. If you buy the hard copy, you might want to bite the bullet and just tear out the pages you will use. Otherwise, e-books are our friends for this application. 0 of 0 people found the following review helpful. Five Stars By Denise J. as listed and on time 0 of 0 people found the following review helpful. Four Stars By Jacob Sanderson Pretty decent guide, as expected from LP
