Lonely Planet, Ryan Ver Berkmoes, Karla Zimmerman : Lonely Planet The Netherlands (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet The Netherlands (Travel Guide):

This is the best of several Netherlands' guides I've read. However, this guides isn't as good as the LP books of 5-10 years ago. I'm beginning to rethink my loyalty as LP

continues to streamline their books -- I assume to compete with other guides. While this guide covers the basics on the Netherlands, I find it gives short shrift to many places outside of Amsterdam. For example, having spent several months over the last 3 three years in Utrecht, it's disappointing to see how little was written about Utrecht, the fourth largest city in the country, and one of the best-preserved medieval cities to boot. Also, the bar and restaurant listings are mundane and read as if the recommendations were picked off of other guides. Some excellent, well-known restaurants and bars are not named, and the ones that are, most are not considered that great. Additionally, I wonder if the writer(s) of this section of the guide had ever gone into one of the recommended bars, for surely s/he would have noted the life-sized cow over the bar and made a mention of it in the 2 sentence write-up. Methinks the writer never set foot in the place. In summary, this guide hits the basics, and does a better than average treatment of the usual travel destinations in Holland, but lacks the depth and breadth that LP used to deliver. 2 of 2 people found the following review helpful. Travel guide that is missing something By Ralph L Johnson Jr I have purchased many Lonely Planet guides for various countries in Europe. They are a great supply of info for planning a trip. When I get a new guide I flip to the back of the index and look up the castle section to see how many there are in a particular country I plan to visit. So I get to the back of the book and there is nothing under castle or under palace or under fortress so I googled castle in the Netherlands and many came up so I emailed Lonely Planet and they apologized and sent me a list of 8 castles that are under their individual names I don't speak dutch so that was great help and a quick reply from Lonely Planet. On the other hand I also purchased the DK Eyewitness Travel book which has more pictures and 37 listings in the index for castles, palaces etc. I was a bit disappointed in my Lonely Planet purchase since they omitted the section out of their index and would recommend you check the book at a book store before you purchase it. Are there really that many castles in the Netherlands and the answer is yes whether they are all open to the public or not well I will have to investigate that but the book that is giving the most info about what I thought I purchased is not this one. 4 of 4 people found the following review helpful. Great start to exploring By A Forest Fan I had a great time in Amsterdam and Nijmegen thanks to this guide. They had things to do that I did not know I was capable of, such as the Waterloop tour of Amsterdam Noord by bicycle. Indispensable!

About the Author Ryan grew up in Santa Cruz, California, which he left at age 17 for college in the Midwest, where he first discovered snow. All joy of this novelty soon wore off. His first job was in Chicago at a small muckraking publication where he had the impressive title of Managing Editor because he was second on a two-person editorial staff and the first person was called Editor. After a year of 60-hour weeks, Ryan took his first trip to Europe, which lasted for seven months and confirmed his long-suspected wanderlust. Since then his byline has appeared in scores of publications and he has covered everything from wars to bars. He definitely prefers the latter. He wrote Lonely

Planet's Chicago and Moscow, co-wrote Texas, Canada and Western Europe, and coordinated Russia, Ukraine Belarus, Great Lakes, Out to Eat - London, Netherlands, and Britain. In the future, Ryan hopes to add more warm-weather destinations to this list, although covering places filled with pubs is a novelty that never wears out. He currently lives in San Francisco and works as author liaison manager at Lonely Planet's Oakland office.
