Lonely Planet, Marc Di Duca, Leonid Ragozin : Lonely Planet Ukraine (Travel Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Ukraine (Travel Guide):

11 of 12 people found the following review helpful. This is an inadequate guide to the Ukraine By Catherine Rawson There are too many areas of the country that are inadequately covered. It really isn't much of a guide book at all. After visiting the western part of the country, I found that there was either very limited mention of most of the sites we visited (and wanted more information on) or none at all. The maps are totally inadequate. The bit of Ukrainian

language was helpful, though, for very few people speak English, except at the better hotels. I was disappointed in the book and wish I would have chosen something else. 0 of 0 people found the following review helpful. review of Lonely Planet Ukraine (Country Travel Guide) Marc Di Duca prior to my trip. By yossef aelony This is an anti Ukraine travel guide. Supposedly only 4 yrs old, but probably written much longer ago. The book strongly discourages travel in the Ukraine. Not worthy of the Lonely Planet series. ask me again in July after my trip. Perhaps then I will agree with them, but I doubt it. 1 of 1 people found the following review helpful. never been to ukraine? use the guide and you wont regret it! By geoffrey beattie every informative guide to historical places to visit and for future travels in the country! i would rather see all 3 books in the series combined into 1 and it would then be extremely usefull

Lonely Planet: The world's leading travel guide publisher Lonely Planet Ukraine is your passport to all the most relevant and up-to-date advice on what to see, what to skip, and what hidden discoveries await you.
