Clem Lindenmayer : **Lonely Planet Walking in Switzerland (Lonely Planet Travel Survival Kit)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Walking in Switzerland (Lonely Planet Travel Survival Kit):

42 of 42 people found the following review helpful. Fantastic resource, very detailed and accurate By Jon Willis This

was by far the most helpful resource that I took to Switzerland--extremely detailed, logically organized, and quite accurate. Walking in Switzerland was extremely helpful in its well-written trail and regional descriptions as well as precise information on surrounding logistics. A must for anybody who intends to hike (seriously or casually) in the region. At the risk of gushing overmuch, this is quite possibly the most useful travel guide I've ever bought. 16 of 22 people found the following review helpful. This was a great resource
