LUXE City Guides : LUXE Istanbul before purchasing it in order to gage whether or not it would be worth my time, and all praised LUXE Istanbul:

fold out with all the most hip and stylish places in Istanbul. Only drawback is that it's not organized by neighborhood so you can end up jumping all over town to find one chic boutique. We were not necessarily in search of all the most luxe and stylish things but did find many excellent contemporary restaurants and shops with this guide. Great way to experience modern, fresh, upscale Istanbul along with all the history. 5 of 5 people found the following review helpful. Trendy but Lacking By Noelbelle11 The guide was tongue and cheek which was cute and the size was great - but we found it hard to follow. The things listed were almost impossible to find on a map (including one would have made it much much better even with just general areas and dots) and the grand bazaar instructions were insane. Maybe Luxe would be better for a different city but I don't recommend it for Istanbul. 0 of 0 people found the following review helpful. Luxe: Istanbul By 124300 Type was much too small to read. The book was too cute and opinionated. I needed something that was more comprehensive.

Delightful, de-lovely and de-luxe. Savagely witty city guides to the hip hotels, bars, restaurants and shops for the hedonist.
