**Patricia Sheehan : Luxembourg (Cultures of the World)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Luxembourg (Cultures of the World):

Diversity is the spice of life, and the highly regarded Cultures of the World series celebrates just that in fully updated, and expanded editions. As has always been true of these outstanding titles, an abundance of vibrant photographs -- including those new to this edition -- stimulate the imaginations of young readers as they travel the globe. A new chapter on the environment focuses on politics and economics as well as on endangered species and the effects of industrialization. Additional authentic recipes add general interest while new maps offer further, easy-to-find facts in "About the Geography," "About the Culture" and "About the Economy" sections.
