From Blue Guides : Madrid (Blue Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Madrid (Blue Guides):

An insider's view of Madrid in which the author expresses her passion for the city's art, architecture and history, as well as its food, people and atmosphere. The guide features ten walks around the city centre, with accompanying maps. Alongside descriptions of museums and churches, the book reveals all the best restaurants, bars, cafes and shops. Easy day trips out of the city include El Escorial, El Pardo, Toledo, Alcala de Henares, Aranjuez, Segovia and Avila.
