Adam Hopkins, Mark Little, Edward Owen : Madrid (DK Eyewitness Travel Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Madrid (DK Eyewitness Travel Guide):

0 of 0 people found the following review helpful. Five StarsBy JamilEverything was as advertised.2 of 3 people found the following review helpful. Dense, readable, helpfulBy wiredweirdA city like Madrid has centuries of art, culture, history, and cuisine to explore. It's universities lead the world in selected areas of research, and it's museums preserve not just the world's treasures for Spain, but Spain's inheritance for the world. Even ignoring the nearby country and other cities, there is a huge amount to know about this complex place and its people.I have a business trip to Madrid coming up, just a few days, and most of that taken up with the demands of my trade. I want to know what to see in my few free hours, know where to go, and know what I'm looking at when I see it. Lacking a native guide or a detailed program of study, this Eyewitness guide seems like just what I wanted. It's clearly organized by sections of the city (and beyond), and by different kinds of events and attractions. It includes brief, tabular summaries describing where to stay, eat, and shop. It covers the pragmatics of getting around an unfamiliar city and country, and of understanding a few gastronomic specialties that may not be familiar.I'm sure it's missing a lot. A very big city, big in history if not in millions of inhabitants, can't fit into a small book. But I have a small time in which to enjoy Madrid first-hand. I won't know til I'm there just how good this is, but it has my hopes up.//wiredweird3 of 5 people found the following review helpful. Eyewitness is the best travel guide!By Alison FosterI'm taking my second trip to Europe in September...Madrid... and again referred to my favorite travel series....Eyewitness. You really can't beat the Dorling Kindersley publishing group for travel books. As I am a little ADD, the fact that not only do they offer a very reader friendly book, but that they also chock it FULL of pictures is a huge plus. To me, a picture is worth a thousand words, so I have to give Eyewitness my seal of approval. I have been relying on Eyewitness travel guides for about 10 years now and so far, I haven't found any other travel guides that come close in comparison.

Very good condition. No pen markings. See pictures
