**Compass Maps LTD. : Madrid ( International Maps) (Popout Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Madrid ( International Maps) (Popout Map):

1 of 1 people found the following review helpful. I LOVE popout maps!!! By GoDucks These maps are so convenient and easy to use, which is particularly important in Madrid, since it is laid out in what could be called a completely nonsensical manner. :-) Popout maps contain all the information you would want, including (in this case) a map of the metro on the back, and common attractions clearly marked. Not to mention the convenient size which fits easily in a pocket or purse, is still easily readable, and allows you to discreetly use your map without telegraphing to the world that you're a tourist! I will buy a popout map for every trip to a major city that I go on. Loved it!

Madrid popout®map is a portable, comprehensive, and multipart map to the capital of Spain. Complete with easy-to-read color maps, this pocket-size guide includes at-a-glance travel information about Madrid. The PopOut maps detail the center of the city and its surrounding neighborhoods; three smaller maps show area overviews and the city's transit system. Additional details show places of interest, historic sites, shopping, parks, and more.
