Damien Simonis, Sarah Andrews : Madrid (Lonely Planet Madrid) before purchasing it in order to gage whether or not it would be worth my time, and all praised Madrid (Lonely Planet Madrid):

1 of 4 people found the following review helpful. Many inaccurate infoBy Edward SolanI have been reading the last 3 editions of Lonely Planet Madrid and it contains tons of innaccurate information over and over.As in Spain one can not fine a lot of Australian wines, they draw the conclusion that "Spaniards do not take leaps into the unknown" It is like everytime they make a new edition the stay 2 days in Madrid and take everything of the last edition, fading

Madrid's feeling, culture, way of life and thinking. Photography is also awful but this is just my opinion. 6 of 6 people found the following review helpful. new guide is better
By Crissy Stalin
Looking at the dates, it seems like the reader reviews for this book are all for the old guide. The new version just came out, and I think it looks and reads a lot better, so maybe it's time to put up some new reader reviews.

A comprehensive guide to Madrid, featuring chapters on where to eat and drink in Spain's buzzing capital.
