7 of 7 people found the following review helpful. The best mapBy A CustomerI lived in Madrid for a little over 6 months and this map was invaluable. It was the perfect size, folded up to fit in a small purse or pocket, but had enough detail to navigate through the windy streets of central Madrid and its environs. In addition, it also includes a metro map and general vicinity map, which was detailed enough to navigate us out of the city on a road trip. Its size and discrete unfolding also helped us to avoid looking like lost tourists

This is a comprehensive map of the city of Madrid in Spain. It features indexes, graphics and icons, and is updated twice annually.
