Bartholomew : Majorca (Holiday Map) before purchasing it in order to gage whether or not it would be worth my

time, and all praised Majorca (Holiday Map):

This is a detailed large-scale map of one of the Mediterranean's most popular islands - Mallorca, also known as Majorca. The largest of the Balearic Islands, Mallorca has a climate which makes it suitable for holidays all year round. Easy to read, the map combines layer colouring and hill shading to illustrate the island's varied topography with cliffs and mountains in the northwest and sandy beaches on the eastern and southern shores. In addition to the main island map, there is also historical and tourist information, with brief descriptions of all the main sights, a chart of the island's history, climate details and selected hotels. On the reverse of the map is a fully indexed street plan of the capital, Palma, at a scale of 1:6,250 (10 inches to one mile), a description of the town and an index to selected hotels and places of interest to visit. There are also smaller-scale plans of Playa de Palma and West Palma Bay.
