The material appears that it could be interesting but it is so difficult to read because EVERY SINGLE LINE IS CENTERED, that I am having trouble absorbing the words. What appears to be a subject heading is actually the last word of the prior paragraph. Longer lines run into the gutter and binding. There is no frontispiece, table of contents, nor any other normal front-of-the-book matter. Very disappointing. If CreateSpace had anything to do with this, they should be ashamed.

Useful background information and photographs of a budget-based Spanish holiday in Malaga Torremolinos, situated on the Costa del Sol, Spain. (Includes a brief log and a day visit to The Rock of Gibraltar.) A wide range of topics are covered in alphabetical order including an interesting history of the Growth of Torremolinos as a major tourist destination. From a small peaceful agricultural, fishing and flour producing village of 30,000 inhabitants in 1920 to the place of today that caters for about 250,000 tourists in peak season. [Finnish Edition]
