Simply the BEST!By A readerAs an arm-chair traveler, I only buy travel books for their pictures -- I've looked at 5 other picture books on Malaysia and for me this is by far the best -- there are lots of large pictures of the tropical forests, beaches, cities and people and the photography is simply outstanding.I really don't know what the other reviewer is complaining about.0 of 1 people found the following review helpful. WASTE OF MONEY. DON'T BUY. VERY POOR QUALITYBy Osorio D. S. AnnaThe cover page of the book has a great picture of the most known scene of Kuala Lumpur, the Petronas building, but that is all. The content of the book is just horrible. Very few information about the country and its places, very few pictures and with very poor quality. I bought the book to have an overall idea of the country and start planning a trip to Malaysia, but the

book is absolutely useless. Not even as a coffee table book. Don't buy. Don't waste your money.
