**Alpina : Mallorca 1:100,000 Cycling Map, waterproof, ALPINA** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mallorca 1:100,000 Cycling Map, waterproof, ALPINA:

0 of 0 people found the following review helpful. Five StarsBy Jeffery P. KlavasGreat map. Lots of details.

Mallorca 1:100,000 Cycling Map, waterproof, ALPINA Double-sided, laminated cycling map of Mallorca at 1:100,000 (1 inch = 1.58 miles) printed on light, waterproof and tear-resistant plastic paper. Roads are classified according to density of traffic and six route profiles are included. The map is double-sided, dividing the island east-west with a small overlap between the sides. Topography is shown by altitude colouring with spot heights and roads are annotated with gradient markings giving the percentage of incline. Roads likely to be used by cyclists are classified according to the density of traffic: light, medium and heavy. Additional annotations provide information for particular sections, e.g. heavy traffic during certain parts of the day/week, tunnel without lights, etc. Nine routes, from 36 km to 141 km long are provided with 10km / 100m of altitude profiles. Also marked are selected mountain bike trails which connect to the road network. The map also shows locations of bike hire and repairs shops (contact details are provided), selected bars and restaurants, viewpoints, places of interest, etc. UTM grid is printed at 10 km intervals. Sheet size 90 x 60 cm / 35.5" x 23.5". Map legend and all the relevant text include English. The map is updated under supervision of Jaume Tort, Mallorca's respectable cycling expert and mountain guide.
