**Reise Knowhow : Mallorca 1:40,000 (Balearic Islands, Spain) 4-sheet set of hiking maps, waterproof, GPS-compatible REISE** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mallorca 1:40,000 (Balearic Islands, Spain) 4-sheet set of hiking maps, waterproof, GPS-compatible REISE:

Mallorca 1:40,000 (Balearic Islands, Spain) 4-sheet set of hiking maps, waterproof, GPS-compatible REISEA set of 4 folded maps (East, West, North, South) covering the island of Mallorca at a detailed scale of 1:40,000 (1 inch = 0.63 miles). They are printed on light, waterproof and tear-resistant plastic paper, with very clear presentation of the road network, plus selected hiking and cycling routes. The maps are double-sided to provide the best balance between an excellent scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in), indexed, and have both a UTM and latitude / longitude (interval 2') grid. Map legend is in English and German. The maps have contours at 100m intervals, enhanced by altitude colouring, with plenty of names of mountain ranges, peaks, etc. Road network includes local roads and cart tracks; driving distances are shown on main and selected secondary routes. A wide range of symbols highlight various places of interest, including campsites and mountain shelters, archaeological and historical sites,

viewpoints, beaches and surfing / diving sites, botanical gardens, etc. For hikers, the maps show hiking trails indicating easy, moderate or difficult routes. Also highlighted are recommended cycling routes, and indicated are roads closed to cyclists.
