Great traditional map By austineuro Durable and so much more practical on vacation than to rely on electronics that might not work/be charged, etc. Also makes nice souvenir afterwards. 1 of 1 people found the following review helpful. A very accurate map By Murph Having never been to Mallorca, we purchased this before our trip. It was incredibly accurate which made driving in an unfamiliar area so much easier. Yes I had GPS, but after the car was parked we had a reference point. 0 of 0 people found the following review helpful. Must have map... By geo49e I will be taking this wonderful map with me when I visit the island in June. It has given me an idea of the distances between places and the routes to get from where I am staying to what I want to see. Happy traveling...

Laminated color road map at a scale of 1:160,000 highlighting beaches, places to stay and points of interest. Legend in 5 languages. Reverse shows Palma de Mallorca at 1:7,000 (indexed) as well as touring information and climate data.

About the Author Borch maps use a patented process for laminating across the folds of the map, making it easy to read and even easier to refold! The tough but non-toxic, environmentally responsible lamination material decomposes to water and oxygen in a landfill environment. Until then, the map is practically indestructible in your backpack or suit coat pocket and can be written on temporarily with dry-erase markers!
