Kompass : Mallorca (Spain, Balearic Islands) 1:75,000 Cycling, 2-map set KOMPASS before purchasing it in order to gage whether or not it would be worth my time, and all praised Mallorca (Spain, Balearic Islands) 1:75,000 Cycling, 2-map set KOMPASS:

Mallorca 1:75,000 Cycling 2-map set, waterproof, GPS-compatible A set of 2 detailed, double-sided, laminated, contoured maps of Mallorca suitable for cycling, mountain biking and hiking at scale 1:75,000 (1 inch = 1.18 miles). The maps are waterproof and tear-resistant, durable enough to survive time spent in the rucksack, pocket or on bicycle handlebars. They are double-sided to provide the best balance between a good scale and a convenient sheet size. The terrain is represented by contours at 100-m intervals, spot-height, hill shading and colouring to indicate wooded areas and vineyards. Road network, with new road numbers, includes farm roads and forest tracts and indicates toll routes and traffic restrictions. Railways are shown with stations and ferry connections between locations on the island are marked. An overprint highlights waymarked cycle paths and mountain bike routes. Also shown are hiking trails indicating steep and climbing sections. A wide range of symbols highlight numerous places of interest, sport and recreational facilities, landmarks, protected areas, beaches, campsites and youth hostels, etc. The map has a UTM grid. Added is a street plan of Palma, indicating main places of interest, plus a map showing ferry links from the mainland

to the Balearic Islands.
