Jane Cumberlidge : Map Inland Waterways of Scotland before purchasing it in order to gauge whether or not it would be worth my time, and all praised Map Inland Waterways of Scotland:

The second edition of Imray's Map of the Inland Waterways of Scotland has been updated. Contact details for the new Scottish Waterways body that replaces British Waterways have been added. The descriptive text has been improved with the addition of more photos. 'Imray are synonymous with nautical maps...and Jane Cumberlidge is a much respected writer on canals throughout Europe. Together they make a formidable pairing and this excellent map reflects all their combined knowledge and expertise. Map is perhaps something of a misnomer, for a comprehensive text is

provided, with superb accompanying photos featuring the Caledonian, Crinan, Forth Clyde and Union canals. This second edition has been brought right up to date with contact details for Scottish Canals, the new body that took over from British Waterways Scotland in July last year." Keith Goss, Waterways World July 2013.
