**ITMB Publishing Ltd. : Map Pack - Czech Republic** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Map Pack - Czech Republic:

This Map Pack is including: Czech Republic Travel Reference Map 1:370,000. We have spent a lot of time and effort converting our Czech artwork into a true travel map. I had great fun doing the researching and, while Jiri Navratil could no doubt come up with dozens of other sites worthy of note, this map is significantly stronger in showing what there is to see in this historic part of Europe. Prague tends to get the lion's share of attention from visitors, but Kutna Hora is a UNESCO World Heritage Site, as is Cesky Krumlov. The Republic is easy to reach from most parts of Europe and is arguably the most travel-visited country in Europe. Our map still shows roads classified by quality and distances between communities, but the artwork has been modernized significantly and a lot of emphasis has been placed on travel spots outside of Prague, which also graces the map as an inset. Prague ITM City Map, waterproof 1:7,000 scale 2nd Edition, printed on plastic paper. This map shows most of the touristic areas of the city, with the castle district, the Little Quarter (where I was nearly run over by a tank in '68), the Charles Bridge, the old town, and the rail station shopping area shown in great detail. This is a very attractive map as well.
