By Michael Zummallen You can certainly get a free map when arriving, but we found this map useful. It's accurate (which you expect in a map), but also has good detail in key tourist areas and has independent recommendations for restaurants etc. we used it for several spots, and found a grocery store while in route for a picnic (could not have been found without the map). We use guidebooks on our iPad, but you can't really use the iPad like a map, Especially in Rome. Even if using Google maps, I don't think it works well while you are actually moving about the city... You need a real map. Only downside, no real transit info, except metro stations. You do need to understand the Bus system via a guidebook or online tool separately, the metro is limited in Rome wrt tourist spots.

By Kinder teacher Not very useful as a map. It's more of a tour guide, with main sites to see. Has lots of hotels on map, but can't find the main train station. Bought on Prime, and when I went to return it found there would be a charge of \$4.95 to return. Will not buy from this company again!

By my review 4 U The best travel map ever. MapEasy allows you to plan and explore from the comfort of your home or hotel. The large, well marked, colorful map show (via drawings) the main sights, lesser sights, hotels, restaurants and shopping. A must have for your travel.
